## DECLARATION OF SHORT-TERM RESEARCH VISIT

To Whom It May Concern,

I hereby formally declare that **Simon OIRY** was hosted as a short-term visiting researcher at the Institute of Marine Sciences, Rome (ISMAR-CNR) from 10/10 to 6/11/2024.

During this period, his work focused on analyzing data from experiments studying heatwave events' effects on seagrass at different scales, from individuals to the meadow. He developed a spectral index to detect seagrass degradation from satellite observations and modeled seagrass degradation at the meadow scale based on air exposure time. This analysis will be part of his thesis and published as a scientific article.

Throughout his visit, Simon OIRY demonstrated excellent conduct, strong scientific rigor, and professionalism. He engaged in fruitful collaborations with colleagues from our institute, contributing valuable insights to ongoing projects. His interactions with our team were collegial and constructive, fostering a positive and productive research environment.

We highly appreciate his contributions and commend his dedication to advancing research in this field.

Sincerely,

Dr. Maria Laura Zoffoli  
Research Scientist
